style "D"

## FOUR DIFFERENT EDGE PROFILES

20mm round top edge

Double pencil round

Ovolo

Cyma

A no nonsense, solid kitchen table quickly becomes the central focus of a kitchen - preparing food, doing homework, casual family meals, all transform the kitchen from an impersonal work station to a family room.

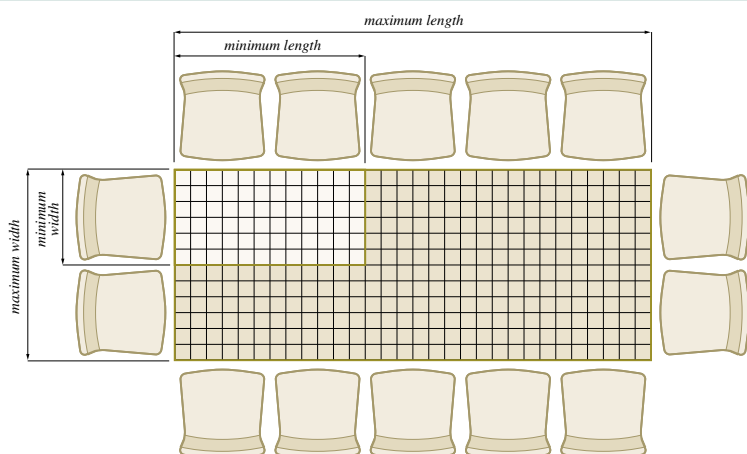

The problem was finding the right size and style - **but not any more.**

The Bordercraft range of kitchen tables, with four leg designs, is a true bespoke service - we carry no stock - so they are all available in **ANY** size from 1200mm x 600mm (4' x 2') to 3000mm x 1200mm (10' x 4') in a choice of timbers to match our worktops - Oak, Iroko, or Maple. In all cases the table height is the industry standard - 750mm (30") Table corners are gently rounded to a 30mm (1.1/4") radius.

Each table is made to order from solid kiln dried hardwoods to the highest furniture standards and delivered fully assembled and finished. The tops are 40mm thick ensuring several lifetimes of service.

Choose the proportions and size to suit your requirements and the space available.

The squares on the grid represent 100mm (4"). As a guide to seating capacity, a 600mm (24") square from the table edge should be allowed per person for comfort - if space is tight you can allow as little as 500mm (20") but that will be a little cramped for everyday use.

If you are looking for something rather more individual please let us know your requirements.

Some common questions are answered on our web site. You will also find details of our other complementary products.
